

2012 IOWA

# HOME CHECK<sup>®</sup> PROGRAM

*A free energy audit of your Iowa home,  
built before Dec. 31, 2001, can lead to  
significant savings for years to come.*

The first step toward making your home more energy efficient is to give it an examination with MidAmerican Energy Company's EnergyAdvantage® HomeCheck® program. The inspection by an energy specialist is free, and so are several energy-saving improvements that may be implemented at the time of the audit.

### How Does It Work?

Call us at 800-545-0762 to make an appointment with an energy specialist. The specialist will provide you with a report of the condition of your home's insulation, heating and cooling efficiency, water heating equipment and the condition of your windows. This report can then be used as a guide for implementing energy-efficient improvements.

Free improvements that may be made at the time of the assessment include:

- Energy-efficient bulbs
- Up to two energy-saving showerheads
- A water heater insulation blanket
- Up to two energy-saving faucet aerators
- Six feet of water pipe insulation

The energy specialist will examine the existing insulation level in your home. If the home qualifies for insulation rebates, the specialist will recommend insulation with rebates up to 70 percent or \$750 for attic, sidewall and foundation insulation. The energy specialist also can install a programmable thermostat for \$30 plus tax.

### Getting Started

Those who qualify for HomeCheck must be residential customers in Iowa, living in homes built before Dec. 31, 2001, whose primary heating energy is supplied directly by MidAmerican Energy. If you are interested in decreasing immediate and long-term energy costs, call **800-545-0762** to arrange for your free HomeCheck.

### HomeCheck® Online

You also can conduct an online analysis by visiting [www.midamericanenergy.com/homeaudit](http://www.midamericanenergy.com/homeaudit).

### FEDERAL TAX CREDITS FOR ENERGY EFFICIENCY

Consult a qualified tax advisor or visit [www.energystar.gov/taxcredits](http://www.energystar.gov/taxcredits) for details on any applicable federal tax credits or incentives available for installation of energy-efficient equipment.
