

2009 Iowa Residential Equipment Program

Financial incentives
for updating your
Iowa home with
high-efficiency
equipment.

Save on equipment installed in Iowa homes between Jan. 1, 2009, and Dec. 31, 2009.

The EnergyAdvantage[®] Residential Equipment

program from MidAmerican makes it easier for Iowa customers to enjoy long-term savings on energy bills and increased comfort through new heating, cooling and water heating equipment and qualifying appliance rebates or financing options.

Eligible Equipment

The Residential Equipment program offers rebates to Iowa customers who purchase and install qualifying heating, cooling and water heating equipment and qualifying appliances fueled by gas and/or electricity supplied directly by MidAmerican. Depending on energy efficiency ratings of specific models, rebate amounts vary.

Equipment Type	Rebate Amount
Natural gas furnaces	\$250 - \$400
Efficient furnace fan motor	\$50
Natural gas boilers	\$150 - \$400
Natural gas water heaters	\$75 - \$300
Electric water heaters	\$50
Window air conditioners	\$25
Central air conditioners	\$100 - \$200
Air-to-air heat pumps	\$100 - \$400
Add-on heat pumps	\$100 - \$400
Ground-source heat pumps	
<i>New closed loop installation</i>	\$2,000
<i>New open loop installation</i>	\$1,000
<i>Replacement equipment</i>	\$1,000
<i>Desuperheaters</i>	\$100
Appliances	\$20 - \$100

Contact your heating and cooling dealer for the energy efficiency ratings of specific equipment.

Competitive Interest Rate Financing Option

MidAmerican and First American Bank have teamed up to offer competitive interest rates on loans to purchase certain eligible equipment for your home. A six-month,

same-as-cash option also is available. Iowa customers may choose either the rebate or a financing option, but not both. Call 800-894-9599 for more information about equipment eligible for financing and to initiate the loan process.

Higher Efficiency Yields Bigger Savings

Some of our rebates are structured so that more efficient equipment will qualify for higher rebates. In order to compare the efficiencies between natural gas furnaces, heating efficiency is measured in Annual Fuel Utilization Efficiency and cooling efficiency is measured in Seasonal Energy Efficiency Rating. These ratings work like gas mileage on your car. The higher the rating number, the higher the efficiency and the greater the energy savings. In order to qualify for a rebate, the furnace must have an AFUE of 92 percent or higher and an air conditioner must have a SEER of 14 or higher. The chart on the following page will specify your rebate for several common efficiency levels.

Participation Guidelines

Participating in the EnergyAdvantage Residential Equipment program is easy. After installing qualifying equipment, simply submit a completed Equipment Rebate Application and detailed invoice to MidAmerican for approval. Your heating and cooling dealer has a supply of Equipment Rebate Applications and will participate in its completion. Your application must be postmarked by Jan. 31, 2010. Equipment included in the EnergyAdvantage New Homes program comprehensive incentive is not eligible for additional incentives in the Residential Equipment program. For more information, please call 800-894-9599.
