

Electric Rate Workshop
October 2, 2007

MidAmerican Energy Company held its fourth electric rate workshop on October 2, 2007, at the Des Moines Area Community College in Ankeny. The workshops were held in compliance with the Iowa Utilities Board Order in Docket No. RPU-04-2 issued on June 19, 2006.

One representative of the Office of Consumer Advocate and one residential customer attended the workshop.

A presentation by MidAmerican Energy Company on street and private area lighting rate design included cost-of-service review, goals and objectives for rate design as well as standard and buy-down options. Company representatives responded to workshop participant questions.

This concluded the series of electric rate workshops held by MidAmerican Energy Company. Workshop presentations are posted to MidAmerican's Rate web page.
