

Specialized Training to Save Money Now and for Years to Come

HVAC SAVE ENERGY EFFICIENCY RESULTS

The new System Adjustment and Verified Efficiency (SAVE) certification assures you that the heating and cooling professional installing or maintaining your new heating, ventilation and cooling (HVAC) system is properly trained in energy efficiency installation and measurement. Your HVAC SAVE certified contractor's assessment will make sure you purchase the most appropriate, energy-efficient system for your home, and that it's installed correctly for optimum savings and comfort.

HVAC SAVE CERTIFIED CONTRACTORS SAVE YOU MONEY

★ REBATES

In Iowa and Illinois, Alliant Energy and MidAmerican Energy Company require that HVAC equipment eligible for rebates be tested by an HVAC SAVE certified contractor.

★ LOWER ENERGY COSTS

By having your HVAC SAVE certified contractor assess, install and maintain your system, you're assured it's as efficient as possible in order to save you money on your energy bills month after month, year after year.

★ PROPERTY VALUE

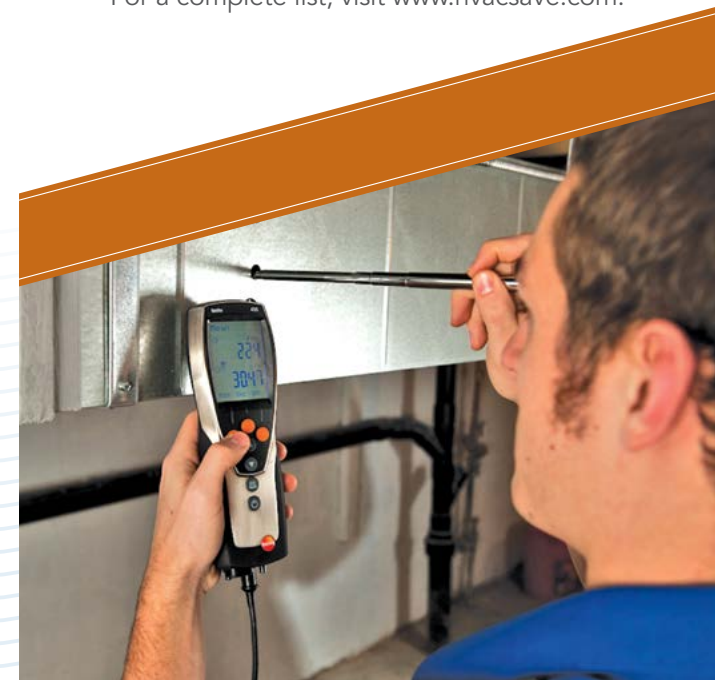

The ability to present future buyers of your home with a verified efficiency rating certificate will assure them of the quality of the HVAC system, helping to preserve your home's value.

HVAC SAVE: APPROVED BY ALLIANT ENERGY AND MIDAMERICAN ENERGY

As part of Alliant Energy's and MidAmerican Energy's longstanding efforts to promote energy efficiency for you and your home, both companies have embraced the HVAC SAVE certification, urging contractors to complete the rigorous training required to become HVAC SAVE certified.

SAVE CERTIFIED PEACE OF MIND

To ensure your heating and cooling professional has the knowledge to install and maintain your heating and cooling system – and save you money. Trust an HVAC SAVE certified contractor approved by Alliant Energy or MidAmerican Energy. For a complete list, visit www.hvacsave.com.

Most furnaces, heat pumps and central air conditioning systems are so reliable you can depend on them to last for decades. But, this may not be so if you have been living with an underperforming system.

Alliant Energy and MidAmerican Energy Company want you to work with an HVAC SAVE certified professional so you are getting the best performance from your system.
