# **1. Notification of Detection Above Groundwater Protection Standard**

This report serves as the notification of detection of cobalt at a statistically significant level above the groundwater protection standard as required by 40 CFR §257.95(g) of the Federal CCR rule for closed Coal Combustion Residue (CCR) Impoundments 1, 2, and 3A at the Neal North Energy Center in Sergeant Bluff, Iowa. Assessment of corrective measures will be conducted in accordance with 40 CFR §257.96.
