

I certify, as a Professional Engineer in the State of Iowa, that Impoundments 1 (South), 2 and 3A were closed by leaving the CCR in-place and capping with an impermeable cover system. Impoundment 1 (North) closure was completed by removal of the CCR.

The construction activities were completed on December 21, 2017 in accordance with the following documents:

- CCR Rule, 40 Code of Federal Regulations 40 CFR 257.102(f)(3).
- Closure Plan specified in Section 3.0 of the Notice of Intent to Close document (dated October 16, 2015) that is posted on the MidAmerican Energy Company public CCR website.
- Burns & McDonnell Construction Plans, originally dated February 15, 2016, and all revisions.
- Burns & McDonnell Technical Specification, originally dated March 8, 2016, and all revisions.
- Final Construction Quality Assurance (CQA) Plan originally dated February 12, 2016 and the Final CQA Report.
