No matter what the groundhog says, cold weather is sure to stick around. Our crews work day and night in the field to keep your homes and businesses powered all winter, but safety starts with you. Here are a few tips for staying safe and warm this winter:

- > Keep anything that can burn at least three feet away from heating equipment, like your furnace, fireplace, wood stove or portable space heater.
- > Turn off space heaters when leaving the room and never leave a fire unattended.
- > Schedule regular inspections and maintenance for your gas appliances to prevent life-threatening malfunctions.
- > Outside, clear snow and landscaping away from exhaust pipes and vents to prevent fire or buildup of dangerous fumes inside your home or business.
- > Purchase a carbon monoxide detector for each level of your space.

Your safety matters to us. Visit [MidAmericanEnergy.com/safety](https://www.midamericanenergy.com/safety) for more safety ideas.

Looking for a new heating system? Shop Presidents Day or end of season sales, and use our equipment rebates for the best deal. Look for ENERGY STAR® certified models to get the most efficient system. Always have a qualified professional install your new equipment according to manufacturer instructions and local codes to ensure it will operate safely.

2020 VISION

A CLOSER LOOK AT ENERGY EFFICIENCY PROGRAMS

A new year means new energy efficiency rebates and programs. Here are **three easy steps** to start saving energy and money in 2020:

- 1** Start with a HomeCheck® online energy assessment. Iowa and Illinois customers get a free home energy kit with energy-saving devices when you complete the assessment.
- 2** Planning to purchase a new refrigerator? Our appliance recycling program offers a rebate, and we will pick up your old appliance for free.
- 3** Get smart about managing heating and cooling costs. Take advantage of our new smart thermostat rebates. These devices can learn your habits and reduce your energy costs.

There is an energy efficiency program for everyone! Visit [MidAmericanEnergy.com/ee](https://www.midamericaneenergy.com/ee) to find the program that is right for you.

RENEWABLE ADVANTAGE 2019 WRAP-UP

The Renewable Advantage program is available to customers who want to voluntarily contribute to the growth of renewable energy in our service territory.

Thank you to all who contributed! At the end of December 2019, MidAmerican Energy's Renewable Advantage program had 742 monthly contributors and 6,707 one-time or periodic contributors. On average, monthly contributors gave \$2.49 and one-time or periodic contributors gave \$15.99. To learn more about Renewable Advantage, visit [MidAmericanEnergy.com](https://www.midamericaneenergy.com).
