▶ Income Tax Adjustment	63 X (\$0.01231)	(\$0.78)
Total		\$74.96

**Base Rate Increase: \$4.97
Percent Increase to Total Bill: 6.6%**

Gas bills have two parts: supply and delivery. The supply portion of the bill represents the price paid by MidAmerican Energy to purchase gas supply for its customers, which is driven by market prices and is a dollar-for-dollar pass through to customers. MidAmerican does not mark up the natural gas fuel cost that is charged to you each month based on the amount of your usage. The requested rate increase will not impact this portion of your bill.

The delivery portion of a customer's bill includes the basic service charge, meter charge, delivery charge and any rate-specific administration fees. These are referred to as the "base rates." The requested rate increase applies to the base rate line items that are part of the delivery portion of your gas bill.

Proposed Final Rates | Sample Monthly Gas Bill with Delivery Rate Increase Applied

Gas Charges Detail

Meter No: AE1234567

Supply		\$55.29
▶ Gas Supply Charge	63 X \$0.87755	\$55.29
Delivery		\$24.64
▶ Basic Service Charge		\$10.00
▶ Meter Charge		\$4.50
▶ Delivery Charge (1st 250 therms)	63 X \$0.14934	\$9.41
▶ Delivery Charge (over 250 therms)	- X \$0.10573	\$0.00
▶ Energy Efficiency Charge	63 X \$0.01156	\$0.73
Total		\$79.93

*Your rate code may change as a result of the proposed increase. New customers will be placed on the lowest rate based on their expected energy usage and re-evaluated annually.

MidAmerican proudly serves more than **600,000 natural gas customers** in Iowa.

MidAmerican safely and reliably maintains **10,541 miles** of gas main and **8,211 miles** of gas service lines in Iowa.

Over the past 20 years, since MidAmerican's last natural gas rate case in Iowa:

- ▶ Our customer base has grown **more than 19%**.
- ▶ The size of our natural gas delivery system has grown, too – the miles of gas main increased more than **20%** and miles of service lines grew by more than **13%**.

MidAmerican continues to replace aging infrastructure since the last rate case to ensure the integrity of the natural gas system.

MIDAMERICAN IS PROUD TO SERVE THE ENERGY NEEDS OF OUR CUSTOMERS.

For more than a century, our customers have counted on MidAmerican to deliver safe, reliable and affordable natural gas service to heat their homes, cook their food or power their business operations. MidAmerican has not increased gas delivery base rates in more than 20 years, but the company has been making investments in its natural gas system to serve the increasing needs of our customers, expand and upgrade the system to accommodate our growing communities and invest in the safety of the system.

Since the last gas delivery rate case in 2002, MidAmerican has made significant investments to ensure our customers' needs and expectations are met and that the natural gas delivery system is maintained and upgraded to ensure the safe delivery of natural gas.

To account for the growth in customer demand, MidAmerican is requesting a 6% increase on average across all rate classes in the natural gas delivery rates.

This modest rate adjustment will help MidAmerican address costs associated with continuing to provide the safe natural gas service that our Iowa customers rely on.

It seems that rising prices and the impacts of inflation are everywhere you turn these days, making the pressure on family budgets and business bottom lines all too real.

At MidAmerican, we understand how important it is to control costs and make the wise investments that will ensure the integrity and health of our systems so that we can continue to deliver you the safe, reliable and affordable energy you rely on.

As your energy provider, we responsibly and proactively upgrade and maintain our systems with the future in mind. That keeps us ahead of the curve, limiting the unexpected and giving you the peace of mind that your energy needs will be met.

We know that you count on us – and we take that responsibility very seriously. Thank you for allowing us to serve your energy needs.

Sincerely,

NICK NATION
VICE PRESIDENT, GAS DELIVERY
