

DATA CENTER ADVANTAGE

U.S. data centers use more than 90 billion kilowatt-hours of electricity per year.*

The MidAmerican Data Center Advantage offering helps data center owners and operators gain access to energy-saving opportunities by helping identify and evaluate projects and providing financial incentives that flow straight to the bottom line.

FINANCIAL INCENTIVES IN JUST FIVE STEPS

STEP 1

Enrollment

STEP 2

Facility Survey

STEP 3

Energy Analysis

STEP 4

Verification

STEP 5

Incentives

Participation benefits include:

- Survey of your facility to assess opportunities for energy savings
- Assistance identifying and evaluating energy-saving strategies
- Analysis of energy costs and paybacks
- Financial incentives to help offset the cost of implementing energy-saving strategies

DATA CENTER ADVANTAGE

Eligibility

Apply for incentives in just minutes.

Customer Eligibility

Any MidAmerican non-residential electric customer with data center, server room or other IT space is eligible. Submission of an application prior to equipment purchase is required.

Project Eligibility

The Data Center offering includes customer incentives for a wide range of energy efficiency measures and businesses.

Examples of eligible measures include, but are not limited to, the following.

- Replacement or Optimization of Chillers, Cooling Towers, Compressors, Condensers or Pumps
- Motor Horsepower Reduction
- Evaporative Coolers
- Air-side/Water-side Economizers
- VFDs for Pumps or Supply Fan Motors
- Electronically-Commutated Motors (ECM) for Fans
- Wired or Wireless Sensors
- Control System Integration
- Airflow Management Measures
- In-Rack or In-Row Cooling Equipment
- Uninterruptible Power Supply (UPS)
- Power Distribution Unit (PDU)
- Server virtualization and collocation
