

NONRESIDENTIAL ENERGY SOLUTIONS

2024 IOWA AND ILLINOIS PROJECT INSTALLATION NOTICE

Fill out form completely and sign. Attach itemized invoices and supporting documentation. Failure to complete this form and provide the requested project documentation will result in denial of the project application. Please call MidAmerican Energy at 800-432-8583 or email nes@midamerican.com with questions.

Before signing and submitting this application, please review the [Qualifications and Conditions](#) located at the end of this document or online at MidAmericanEnergy.com/ee.

Please allow four weeks for incentive processing.

The following documentation is required and must be included with this project installation notice:

- Equipment cut sheet/manufacturer specification sheet for all equipment installed as part of the project
- Copy of invoice(s) for the purchase and installation of equipment; invoice(s) must be dated and must match the indicated final project cost; invoice(s) must include the installation location or business name
- Key Input and Assumption (KIA) table, if applicable

Submit completed applications using one of the following methods:

Email: nes@midamerican.com

Mail: MidAmerican Energy
PO Box 8439
Des Moines, IA 50318-9998

Disclaimer

MidAmerican Energy Company does not guarantee that installation and operation of high-efficiency equipment will result in reduced usage or in cost savings. MidAmerican Energy Company makes no warranties, expressed or implied, with respect to any equipment purchased or installed, including, but not limited to, any warranty of merchantability or fitness for a particular purpose. In no event shall MidAmerican Energy Company be held liable for any incidental or consequential damages or injuries resulting from defective equipment or installation. MidAmerican Energy Company reserves the right to cancel or change these programs at any time. MidAmerican Energy Company's acceptance of this application does not guarantee payment of rebate.

Customer Agreement (required)	
I, the undersigned, agree that to the best of my knowledge, the energy efficiency project listed herein is completely installed and operational at the project site listed in the Project Information section. I have complied with all federal, state, and local codes and regulations, and MidAmerican Energy Company's qualifications and conditions. I will notify MidAmerican Energy Company immediately of any changes to the above information. I also understand that any changes in the preapproved project scope or submission of the Project Installation Notice after the preapproval expiration date may result in the recalculation of the preapproved rebate. Additional rebates in excess of the preapproved amount may be subject to availability of Program funds. I understand that MidAmerican Energy Company may conduct a post-installation inspection to verify savings. I am authorized by the customer organization listed above to submit this Project Installation Notice on its behalf.

Nonresidential Qualifications and Conditions

- Participants must be MidAmerican Energy Company nonresidential (commercial or industrial) customers located in MidAmerican Energy Company's Iowa or Illinois service territory.
- MidAmerican Energy Company must provide the primary electricity or natural gas to the equipment at the facility for which the rebate or incentive is being paid.
- Iowa transportation gas customers with daily metering are ineligible for natural gas incentives. However, Iowa customers with monthly metering under the Monthly Metered Transportation Service natural gas tariff are eligible for incentives.
- Qualifying equipment must be new, installed on the premises and must not be purchased for resale. Please see the [specific equipment qualifications](#) for details.
- Customers are responsible for ensuring that the equipment installed for these programs meets all applicable codes, standards and regulatory requirements.
- Customers agree to allow MidAmerican Energy Company, its program implementation contractors and their subcontractors access to their property for the purposes of delivering program services/equipment made available through MidAmerican Energy's energy efficiency programs.
- Equipment must be purchased, installed and operating between January 1, 2024, and December 31, 2024, to be eligible for a rebate or incentive.
- If applying for a rebate, failure to complete the required sections of the application and provide the requested documentation will result in denial of application.
- Instant Discounts cannot be combined with any other rebate or incentive program, including Nonresidential Energy Solutions, Commercial New Construction and Income-Qualified Multifamily Housing.
- Rebates and incentives are issued on a first-come, first-served basis. Rebates and incentives are offered until approved funds are exhausted or through December 31, 2024, whichever comes first.
- Rebate payment cannot exceed 50% of the installed cost (reasonable labor and equipment – reasonableness to be determined by MidAmerican Energy Company). Installed cost includes contractor labor only.
- All project installations with rebates or incentives exceeding \$20,000 will require an on-site verification of installation by either MidAmerican Energy Company, its program implementation contractor(s) or their subcontractors, prior to issuance of rebate or incentive.
- Rebates or incentives will be issued to the account holder or building owner.
- Rebate and/or incentive caps: The rebate and/or incentive limit is based on actual payments per customer and applies even if payments or discounts for some or all projects are paid to one or more trade ally(ies). Below are the limits that may apply to customers and/or projects:
 - **Commercial New Construction:** Commercial New Construction rebates are limited to \$1,000,000 per building.
 - **Customer Rebate and/or Incentive:** Customer rebates and/or incentives received across all projects under one tax identification are limited to \$1 million per program year, excluding rebates received through the Commercial New Construction program.
- Rebates and incentives may be subject to income tax. Consult your tax advisor for more information.
- For details on any applicable federal tax credits or incentives available for the installation of energy-efficient equipment, consult a qualified tax advisor or visit www.energystar.gov/about/federal_tax_credits.
- MidAmerican Energy Company reserves the right to withhold payment or award the incentive in the form of a bill credit for customers in arrears.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors reserve the right to request additional supporting documentation, if necessary, to ensure eligibility and verify existing system performance and baseline conditions.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors reserve the right to conduct onsite verification of equipment installation, install metering devices on new equipment, and to verify sales receipts and other project documentation at any time before or after issuing a rebate or incentive.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors do not endorse any particular manufacturer, product or system design. Listing a product does not constitute an endorsement, nor does it imply that unlisted products are defective in any way.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors do not guarantee that installation and operation of energy-efficient equipment will result in reduced usage or in cost savings. The manner in which a customer uses and maintains energy-efficient equipment affects potential cost savings.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors make no warranties, expressed or implied, with respect to any equipment purchased or installed, including, but not limited to, any warranty of merchantability or fitness for a particular purpose.

- In no event shall MidAmerican Energy Company, its program implementation contractors or their subcontractors be held liable for any incidental or consequential damages or injuries resulting from defective equipment or installation arising out of a customer's participation in any programs.
- MidAmerican Energy Company may wish to publicize the customer's participation in the program, the results, the amount of incentives paid to the customer and any other information that reasonably relates to the customer's participation. In such instances, MidAmerican Energy Company will secure a release from the customer authorizing to make such information public.
- The programs are effective January 1, 2024, through December 31, 2024, unless otherwise noted, and are subject to periodic review by MidAmerican Energy Company, and MidAmerican Energy Company reserves the right to modify or end these programs at any time and for any reason without notification.

Additional Custom and Direct Project Assistance Project Qualifications

- Custom and Direct Project Assistance projects require preapproval by MidAmerican Energy Company.
- After an application is preapproved by MidAmerican Energy Company, the customer will receive written notification of the preapproved rebate amount, and the energy savings measures must be fully installed within 12 months of preapproval to qualify for rebate payments.
- Any energy savings measures installed prior to the issuance of MidAmerican Energy Company's written authorization or preapproval will be deemed as an unauthorized installation and MidAmerican Energy Company will have no obligation to pay rebates for those energy savings measures.
- Regardless of preapproval from MidAmerican Energy Company, projects may be denied, or rebates reduced at MidAmerican Energy Company's discretion upon receipt of final project cost and scope of work documentation.
- MidAmerican Energy Company reserves the right and discretion to lower the rebate amount if the quantity and/or cost of energy savings measures actually implemented differ from the preapproved project. The final rebate is based on verified energy savings and costs.
- Custom and Direct Project Assistance rebates for electric projects are \$0.05-\$0.18 per kWh of first-year savings, and rebates for natural gas projects are \$0.35 - \$1.50 per therm of first-year savings. Customers will receive the lesser of the calculated Custom or Direct Project Assistance rebate or 70% of the eligible project cost. Projects with simple paybacks less than two years before rebates are ineligible for Custom and Direct Project Assistance rebates.

Additional Retro-Commissioning Project Qualifications

- Retro-Commissioning projects require preapproval by MidAmerican Energy Company.
- After an application is preapproved by MidAmerican Energy Company, the customer will receive written notification of the preapproved rebate amount, and the energy savings measures must be fully installed within three months of preapproval to qualify for rebate payments.
- Any energy savings measures installed prior to the issuance of MidAmerican Energy Company's written authorization or preapproval will be deemed as an unauthorized installation and MidAmerican Energy Company will have no obligation to pay rebates for those energy savings measures.
- Regardless of preapproval from MidAmerican Energy Company, projects may be denied, or rebates reduced at MidAmerican Energy Company's discretion upon receipt of final project cost and scope of work documentation.
- MidAmerican Energy Company reserves the right and discretion to lower the rebate amount if the quantity and/or cost of energy savings measures actually implemented differ from the preapproved project. The final rebate is based on verified energy savings and costs.
- Retro-Commissioning rebates for electric projects are \$0.05 per kWh of first-year savings, and rebates for natural gas projects are \$0.35 per therm of first-year savings. Retro-Commissioning rebates cannot exceed 100% of the project cost; reasonable and documented internal labor costs may be included in the eligible project cost for retro-commissioning projects (reasonableness to be determined by MidAmerican Energy Company). Projects with simple paybacks equal to or greater than three years before rebates are ineligible for retro-commissioning rebates.
