Program Participation Opportunity

MidAmerican Energy Company expanded the SummerSaverSM demand response program to include participants with qualified smart thermostats. When the demand for electricity is the highest, this program allows us to control the operation of your home air conditioner compressor or air-source heat pump by establishing a connection with your smart thermostat through the smart thermostat manufacturer. If you have a qualifying smart thermostat, would you be interested in participating in this program?

Yes If yes, an email address is required on page one in the Customer Information section.

For more information on the SummerSaver program or any other MidAmerican Energy Company rebate programs, visit MidAmericanEnergy.com/ee

Specific Terms and Conditions

- Smart thermostat(s) must be purchased, installed and connected to the internet via Wi-Fi prior to submitting a rebate application and registered with the manufacturer by Dec. 31, 2021.
- The rebate is only available for ENERGY STAR certified smart thermostats that are purchased new. Resale thermostat, new parts installed in an existing smart thermostat, or a smart thermostat that is leased, rebuilt, rented, received from insurance claims, received from warranty, received with reward points or won as a prize do not qualify.
- The rebate is only available for the replacement of existing manual or programmable thermostats. Replaced products must be permanently removed and disposed of in accordance with local codes and ordinances.
- Smart thermostat(s) must be installed in a property owned by the applicant, or the applicant must receive permission from the property owner to install the equipment. Submission of an application indicates that the tenant has obtained this permission.

General Qualifications and Conditions
