

APRIL-DECEMBER 2019 IOWA

ENERGY EFFICIENCY REBATE INFORMATION FOR YOUR HOME

Equipment must be purchased and installed between April 1, 2019, and Dec. 31, 2019, prior to submission of rebate application. Rebate applications for equipment/materials purchased must be submitted within 45 days of dealer invoice or by Jan. 31, 2020, whichever comes first. Rebates are issued on a first-come, first-served basis. Applications can be submitted via email at rebateapplications@midamerican.com.

For prescriptive rebates, the rebate payment cannot exceed 50 percent of the installed cost (reasonable labor and material/equipment - reasonableness to be determined by MidAmerican Energy Company). Installed cost includes contractor labor only and does not include internal labor.

Heating and Cooling

Equipment	Qualification(s)	Customer Rebate
Natural gas furnaces - AHRI Certified®	<225 MBtu and AFUE 96 or greater	\$175/unit
Central air conditioners - AHRI Certified	<65 MBtu (coil and condenser must match)	
	SEER 15-15.9	\$75/unit
	SEER 16-16.9	\$150/unit
	SEER 17-17.9	\$300/unit
	SEER 18 and above	\$500/unit
Smart thermostats	ENERGY STAR®	\$75/unit

HomeCheck® Online

Save money and energy and add comfort to your home with a free online HomeCheck energy assessment. The online assessment offers personalized energy use information that can be customized based on your home and lifestyle. Choose "Your Energy Use" to see an overview of your energy use by month and to see how much energy your home uses compared to other homes in your area that have similar features, such as square footage or number of occupants. The online assessment also offers energy-saving recommendations and tips that range from no cost to major investment and provides estimated energy savings based on those tips. To further customize your experience, choose "Ways to Save" and complete the short home survey. Once completed, you will see what uses the most energy in your home. To begin, access the HomeCheck online energy assessment at www.midamericanenergy.com/homeaudit and log into your MidAmerican Energy account.

Appliance Recycling

Equipment	Qualification(s)	Customer Rebate
Refrigerators/Freezers	10 cubic feet or larger, no commercial sizes	\$50/unit

SummerSaverSM

SummerSaver is a voluntary program in which MidAmerican Energy installs a small cycling device on the outside of the home near the central air conditioning unit. This device allows MidAmerican Energy to cycle the air conditioner compressor off and on during peak usage weekdays from June through September.

Customers who participate in SummerSaver the entire cycling season receive a \$30 end-of-season bill credit on their October or November energy bill the first year of participation and a \$20 end-of-season bill credit in subsequent years. Later in 2019 the program plans to introduce using a qualified smart thermostat that allows MidAmerican Energy to cycle your air conditioner by remotely adjusting the thermostat's temperature. Additional information will be shared prior to the addition of this device to the program.

Glossary

AFUE - Annual Fuel Utilization Efficiency: Ratio of annual heat output of the furnace or boiler compared to the total annual fossil fuel energy consumed by a furnace or boiler.

AHRI - Air conditioning, Heating and Refrigeration Institute: Provides standardized testing and certification of heating, ventilation, air conditioning (HVAC) equipment.

SEER - Seasonal Energy Efficiency Rating: Indicates the relative amount of energy needed to provide a specific cooling output.
