

HEATING AND COOLING

2022 IOWA RESIDENTIAL REBATE APPLICATION

To apply, complete all required sections of this application and include required documents or the application will be rejected. Applications must be submitted within 90 days of the invoice or by December 31, 2022, whichever comes first. Equipment must be purchased between January 1, 2022, and December 31, 2022, and installed and operating prior to submitting the final rebate application. Before signing and submitting this application, please review the [Qualifications and Conditions](#) located at the end of this document or online at www.MidAmericanEnergy.com/ee.

Rebates are issued on a first-come, first-served basis. Please allow 14 days for rebate processing.

A dated sales receipt or invoice including itemized labor and equipment costs, manufacturer's name, model number, and quantity of qualified equipment purchased must be included with the completed rebate application.

Submit completed applications using one of the following methods:

Online: Trade Allies/contractors can submit applications online. Trade Allies/contractors must first enroll to have access. Contact a Trade Ally Ambassador at 877-290-4517 to enroll.

Equipment cost	Labor cost

Air-Source Heat Pump

- Equipment must be < 65 MBtuh and AHRI certified; coil and condenser must be an AHRI match
- Ductless mini-splits do not qualify for air-source heat pump rebate
- Air-source heat pump must replace an electric heating system
- Customer's primary heat source must be electric and backup/supplemental system must be electric
- Air-source heat pump must be primary source for both heating and cooling

Qualifying Efficiency/Rebate:

- SEER 15-15.9 (\$225/unit) SEER 16-17.9 (\$400/unit) SEER 18+ (\$600/unit)

Date installed	Invoice date
AHRI reference number	Manufacturer
Outdoor model number	Outdoor serial number
Indoor model number	Indoor serial number
Backup/supplemental heat: <input type="checkbox"/> Electric resistance (baseboard or furnace) <input type="checkbox"/> No backup/supplemental heat <input type="checkbox"/> Other _____	For heating, this air-source heat pump replaces: <input type="checkbox"/> Air-source heat pump <input type="checkbox"/> Other _____ <input type="checkbox"/> Electric resistance (baseboard or furnace)
For cooling, this air-source heat pump replaces: <input type="checkbox"/> Air-source heat pump <input type="checkbox"/> Central air conditioner <input type="checkbox"/> Room air conditioner <input type="checkbox"/> No cooling	
Equipment cost	Labor cost

Ductless Mini-split Heat Pump - Whole House

- Equipment must be < 65 MBtuh and AHRI certified; coil and condenser must be an AHRI match
- Must be inverter-based units
- Home must be a minimum of five years old
- Unit must replace electric resistance heat
- Unit must be primary heating and cooling source for the entire home and a minimum of 12 MBtuh heating capacity
- System must be installed in a single-family home (detached or attached, which includes condos, duplexes, and townhomes) or multifamily property with all units on a MidAmerican residential rate – each residential home or unit must have a dedicated heating and cooling system (central heating and/or cooling for multiple units in a multifamily property do not qualify); cooling only systems are not eligible
- Ductless equipment connected to a central HVAC distribution system should apply for an air-source heat pump rebate
- Rebate amount is based on actual tons – actual tons are calculated based on AHRI cooling capacity divided by 12,000

Qualifying Efficiency/Rebate:

- SEER 18-21 and minimum EER 12 and HSPF 10 (\$200/ton)
 SEER > 21 and minimum EER 12 and HSPF 10 (\$300/ton)

Date installed	Invoice date
AHRI reference number	Manufacturer
Outdoor model number	Outdoor serial number
Indoor model number	Indoor serial number
For cooling, this ductless mini-split replaces: <input type="checkbox"/> Air-source heat pump <input type="checkbox"/> Central air conditioner <input type="checkbox"/> Room air conditioner <input type="checkbox"/> No cooling	
Equipment cost	Labor cost

Ductless Mini-split Heat Pump - Supplemental for Existing Space

- Equipment must be < 65 MBtuh and AHRI certified; coil and condenser must be an AHRI match
- Must be inverter-based units
- Home must be a minimum of five years old
- Unit must be primary heating and cooling source for supplemental heating and cooling for the individual existing room
- System must be installed in a single-family home (detached or attached, which includes condos, duplexes, and townhomes) or multifamily property with all units on a MidAmerican residential rate – each residential home or unit must have a dedicated heating and cooling system (central heating and/or cooling for multiple units in a multifamily property do not qualify); cooling only systems are not eligible
- Rebate amount is based on actual tons – actual tons are calculated based on AHRI cooling capacity divided by 12,000

Qualifying Efficiency/Rebate:

- SEER 18-21 and minimum EER 12 and HSPF 10 (\$100/ton)
- SEER > 21 and minimum EER 12 and HSPF 10 (\$150/ton)

Date installed	Invoice date
AHRI reference number	Manufacturer
Outdoor model number	Outdoor serial number
Indoor model number	Indoor serial number

Disclaimer

MidAmerican Energy Company does not guarantee that installation and operation of high-efficiency equipment will result in reduced usage or in cost savings. MidAmerican Energy Company makes no warranties, expressed or implied, with respect to any equipment purchased or installed, including, but not limited to, any warranty of merchantability or fitness for a particular purpose. In no event shall MidAmerican Energy Company be held liable for any incidental or consequential damages or injuries resulting from defective equipment or installation. MidAmerican Energy Company reserves the right to cancel or change these programs at any time. MidAmerican Energy Company's acceptance of this application does not guarantee payment of rebate.

Customer Agreement (required)	
I certify that I have purchased the equipment described on this form and that it has been installed at the service address indicated. I agree to the qualifications and conditions associated with this form. I understand that MidAmerican Energy reserves the right to inspect and verify installation before or after issuing payment.	
Customer signature	Date

Iowa Residential Qualifications and Conditions

- Participants must be residential customers located in MidAmerican Energy Company's Iowa service territory.
- MidAmerican Energy Company must provide the primary electricity or natural gas to the equipment for which the rebate is being paid. Additionally, heating, ventilation and air conditioning rebates may require that the primary heating fuel is provided by MidAmerican Energy Company to the installation address.
- Qualifying equipment must be new, installed on the premises and must not be purchased for resale.
- Customers are responsible for ensuring that the equipment installed for these programs meets all applicable codes, standards and regulatory requirements.
- Customers agree to allow MidAmerican Energy Company, its program implementation contractors, and their subcontractors to access their property for the purposes of delivering program services/equipment made available through MidAmerican Energy's energy efficiency programs.
- Equipment must be purchased between January 1, 2022, and December 31, 2022, and installed and operating prior to submission of final rebate application. Rebate applications for equipment/material purchased must be submitted within 90 days of dealer invoice, or by December 31, 2022, whichever comes first. Applications can be submitted via email at rebateapplications@midamerican.com.
- Failure to complete the required sections and provide the requested documentation will result in denial of application.
- Rebates are issued on a first-come, first-served basis. Rebates and incentives are offered until approved funds are exhausted or through December 31, 2022, whichever comes first.
- For prescriptive rebates (excluding smart thermostat rebates), the rebate payment cannot exceed 50% of the installed cost (reasonable labor and material/equipment – reasonableness to be determined by MidAmerican Energy Company). Installed cost includes contractor labor only and does not include internal labor. Smart thermostat rebate amount cannot exceed 50% of the smart thermostat purchase price, excluding installation costs.
- MidAmerican Energy Company reserves the right to withhold payment or award the incentive in the form of a bill credit for customers in arrears.
- Rebate checks will be issued to the building owner or account holder unless authorization provided for an alternative payee.
- Allow up to 14 days for rebate processing once application and supporting documents are received (excluding on-site verification time, if needed).
- MidAmerican Energy Company, its program implementation contractors and their subcontractors reserve the right to request additional supporting documentation, if necessary, to ensure measure eligibility and verify existing system performance and baseline conditions.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors reserve the right to inspect and verify installation before or after issuing the rebate payment.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors do not endorse any manufacturer, product, or system design in promoting this incentive program. Listing a product does not constitute an endorsement, nor does it imply that unlisted products are defective in any way.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors do not guarantee that installation and operation of energy-efficient equipment will result in reduced usage or in cost savings. The manner in which a customer uses and maintains energy-efficient equipment affects potential cost savings.
- MidAmerican Energy Company, its program implementation contractors and their subcontractors make no warranties, expressed or implied, with respect to any equipment purchased or installed, including, but not limited to, any warranty of merchantability or fitness for a particular purpose.
- In no event shall MidAmerican Energy Company or its program implementation contractors or their subcontractors be held liable for any incidental or consequential damages or injuries resulting from defective equipment or installation.
- The programs are effective January 1, 2022, through December 31, 2022, unless otherwise noted, and are subject to periodic review by MidAmerican Energy Company. MidAmerican Energy Company reserves the right to modify or end these programs at any time without any notification.
