

ANNUAL PERIOD ELECTION IF PURSUING NET METERING

MIDAMERICAN ENERGY RATE IO

One election is needed if 'Net Metering' is chosen as the interconnection customer's intent for the distributed generation facility consistent with the applicable rate schedule, Rate IO, in MidAmerican's approved Iowa Electric Tariff.

The annual period is a period of twelve (12) consecutive monthly billing periods. The initial annual period begins when the Customer commences service under Rate IO and may include fewer than twelve (12) consecutive monthly billing periods. The Customer may choose either a January or April date at the time of interconnection for the purposes of determining the annual period.

Please indicate the interconnection customer's choice regarding the Rate IO annual period: January April
