**17,960**  
potential gas leak calls  
in 2025

**550**  
gas workers employed  
across Iowa

2025 American  
Gas Association  
Employee Safety  
Achievement Award

## A Message from MidAmerican

We know energy costs matter, and any increase deserves a clear explanation.

The cost to deliver natural gas service to your business has increased since our current rates were set. The reasons for this include system upgrades, safety requirements, and higher material and labor costs. To continue providing safe, reliable service, we've asked the Iowa Utilities Commission to approve an update to our natural gas delivery rates.

On the back of this insert, you'll see an estimate of how this change could affect a typical monthly bill. Our focus is on keeping service reliable. It's also on keeping it affordable over time. MidAmerican's rates would remain competitive, even with this proposed change.

The review process with the Commission is how rates are set in Iowa. We provide detailed information on our costs and the work being performed for maintenance and upgrades. The Commission reviews that information and determines the final approved rates.

We're always improving the system that serves you. That means replacing aging gas mains and distribution pipes, improving safety and maintaining reliable service, especially during peak winter demand. These long-term investments help keep the system operating the way you expect.

We understand that even small increases matter, which is why we offer efficiency tips and rebates to help you save energy and money. If you have questions or want to learn more, please visit **[MidAmericanEnergy.com/iowa](https://MidAmericanEnergy.com/iowa)** or call **888-427-5632**.

Sincerely,

**Karrie Leza**  
Vice President, Gas Delivery  
MidAmerican Energy

# Understanding the Impact to Your Bill

## Sample Monthly Gas Bill

Rate: Small Volume (SV) Service Nonresidential (182 therms)

	CURRENT	PROPOSED
<b>Supply</b>	<b>\$96.92</b>	<b>\$96.92</b>
Gas Supply Charge <sup>1</sup>	\$96.92	\$96.92
<b>Delivery</b>	<b>\$41.00</b>	<b>\$47.99</b>
Basic Service Charge	\$10.00	\$11.00
Meter Class 1 Charge	\$4.50	\$4.50
Delivery Charge	\$24.93	\$31.04
Capital Investment Charge <sup>2</sup>	\$0.12	\$0.00
Rate Case Cost Recovery Fee <sup>2</sup>	\$0.04	\$0.04
Energy Efficiency Charge <sup>2</sup>	\$1.41	\$1.41
<b>Total</b>	<b>\$137.92</b>	<b>\$144.91</b>

**Average Monthly Bill Increase: \$6.99**

### GAS BILLS HAVE TWO PARTS

**Supply** is the cost of the natural gas MidAmerican buys for you. This price is set by the market and passed directly to customers with no markup. The requested rate increase does not affect this part of your bill.

**Delivery** covers getting gas to your business and maintaining the system. This includes the basic service charge, meter charge, delivery charge and other fees. The requested rate increase applies only to this portion of your bill.
